

CERAMIDES AND PHYTOSPHYNGOSINES LIPOSOMES

CODE: CERV-2

Date of last amendment: 11.06.2025

INCI name: WATER (AQUA) (AND) CERAMIDE NP (AND) PHYTOSPHINGOSINE (AND) PHOSPHOLIPIDS (AND) PHENOXYETHANOL (AND) CARBOMER (AND) XANTHAN GUM.

CHARACTERISTICS: Ceramides, phytosphingosines and phospholipids liposomes encapsulating water and thickened with carbomer and xanthan gum.

PROPERTIES: Improves skin hydration, elasticity, and the epidermis barrier. CERV-2 help to balance the hydrolipidic layer of the skin: this layer has multiple benefits to keep the outer barrier of the skin hydrated. Protects the skin.
