

REPAIRING NANOVECTOR WITH ARGAN OIL AND COCONUT OIL (for chemically treated hair)

CODE: LIPCUAT-39

Date of last amendment: 20.12.2021

INCI name: WATER (AQUA) (AND) PHOSPHOLIPIDS (AND) POLYQUATERNIUM-16 (AND) ARGANIA SPINOSA KERNEL OIL (AND) COCOS NUCIFERA OIL (AND) PANTHENOL (AND) PHENOXYETHANOL (AND) TOCOPHERYL ACETATE.

DESCRIPTION: Nanodispersion of phospholipids from non-GMO soybean lecithin associated to a quaternary polymer that confers positive net charge and high substantivity, which encapsulate and transport Argan Oil, Coconut Oil, Panthenol and Vitamin E.

PROPERTIES: Moisturizer and lubricant, presents high substantivity with capillary fiber. Provides shine and smoothness to hair. Helps improve resistance and elasticity, preventing hair loss due to cut. Vitamin E is an antioxidant and Panthenol strengthens hair. Builds up a **FILLER effect** on the hair fiber, reducing porosity. In dyed hair, helps prevent color loss with subsequent washes.
